Od 1995. godine Ferrotehna razvija i distribuira rasvjetna rješenja za stambene i komercijalne projekte. Kao obiteljska tvrtka s dugogodišnjim iskustvom, izgradili smo stabilnu prisutnost na domaćem i inozemnim tržištima, oslanjajući se na kvalitetu, pouzdanost i kontinuirani razvoj.

Asortiman obuhvaća dekorativne i tehničke proizvode s naglaskom na LED tehnologiju i energetska učinkovitost. Pažljivo pratimo trendove i potrebe tržišta kako bismo ponudili aktualna, tehnički usklađena rješenja.

Stručna podrška u planiranju i odabiru osigurava optimalne rezultate — od ideje do realizacije.

Stabilnost, znanje i iskustvo temelj su našeg poslovanja.

Since 1995, Ferrotehna has been developing and distributing lighting solutions for residential and commercial projects. As a family-owned company with long-standing experience, we have built a strong presence in domestic and international markets, grounded in quality, reliability, and continuous growth.

Our portfolio includes decorative and technical products with a focus on LED technology and energy efficiency. By closely following trends and market needs, we ensure relevant and technically aligned solutions.

Professional support in planning and selection ensures optimal results — from concept to completion.

Stability, expertise, and experience define our business.

FEROTEHNA TREND HIGHLIGHTS 2026

Vođeni promjenama u arhitekturi interijera i razvojem LED tehnologije, oblikovali smo selekciju proizvoda koja odgovara aktualnim potrebama tržišta. Naglasak je na jasnim linijama, toplim metalnim završnim obradama i funkcionalnim rješenjima koja podižu kvalitetu prostora.

Sve veći fokus stavlja se na prilagodljivost svjetla — mogućnost promjene temperature boje, dimabilnost i integrirana pametna rješenja postaju standard, a ne dodatak.

Materijali poput mat crne, brušenog zlata, antracita i toplih metalnih tonova definiraju aktualni smjer razvoja. Rasvjeta više nije samo tehnički element — postaje integralni dio arhitekture prostora.

Driven by shifts in interior architecture and the evolution of LED technology, we have curated a product selection aligned with current market demands. The focus is on clean lines, warm metallic finishes, and functional solutions that enhance the overall quality of a space. Increasing emphasis is placed on lighting flexibility — adjustable colour temperature, dimmability, and integrated smart solutions are becoming the standard rather than an add-on. Materials such as matte black, brushed gold, anthracite, and warm metallic tones define the current direction of development. Lighting is no longer just a technical element — it has become an integral part of architectural design.

U projektima različitih tipologija rasvjeta mora objединiti estetske zahtjeve i tehničku preciznost. Naglasak je na rješenjima koja omogućuju optimalnu distribuciju svjetla, prilagodbu specifičnim uvjetima prostora te stabilne i dugoročno pouzdane performanse. Kontinuiran razvoj asortimana i jasno definirani tehnički standardi omogućuju Ferotehni da odgovori na zahtjeve tržišta uz dosljednu razinu kvalitete i dostupnosti.

Across various project typologies, lighting must integrate aesthetic expectations with technical precision. The focus is on solutions that ensure optimal light distribution, adaptability to specific spatial conditions, and stable, long-term performance. Through continuous portfolio development and clearly defined technical standards, Ferotehna consistently meets market demands with reliable quality and availability.

SARIA

LED viseće i stropne svjetiljke u izvedbi visokog sjaja oblikovane su tako da svjetlost i površina djeluju kao jedinstvena cjelina. Glatka, reflektirajuća završna obrada diskretno hvata okolno svjetlo i ističe prisutnost svjetiljke u prostoru. Dostupne su u tri boje, omogućujući usklađivanje s različitim interijerima.

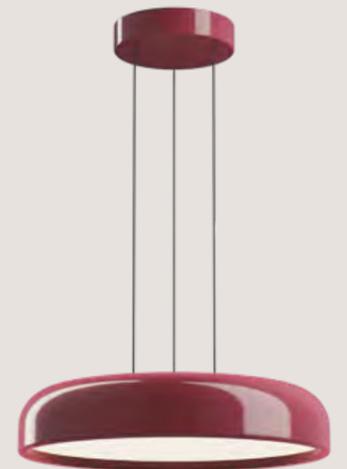

LED pendant and ceiling luminaires with a high-gloss finish are designed so that light and surface act as a single, cohesive element. The smooth, reflective exterior subtly captures ambient light, enhancing the presence of the luminaire. Available in three colour options, they integrate naturally into a wide range of interiors.

LED stropna svjetiljka Tara nudi fleksibilno osvjetljenje kroz tri načina rada, prilagođena različitim situacijama u prostoru. Glavno svjetlo osigurava ravnomjerno osnovno osvjetljenje, dok rubno svjetlo u okviru stvara diskretan ambijentalni efekt. Njihova kombinacija omogućuje punu svjetlosnu snagu.

The Tara LED ceiling light offers flexible lighting through three operating modes, adapting easily to different spatial needs. The main light provides even general illumination, while the integrated rim light creates a subtle ambient effect. Used together, they deliver full light output.

MAGNETNE TRAČNE SVJETILJKE / MAGNETIC TRACK LIGHTS

Magnetne tračne svjetiljke omogućuju fleksibilno oblikovanje rasvjete unutar sustava, uz jednostavno postavljanje i promjenu pozicije svjetlosnih elemenata. Zahvaljujući modularnom pristupu, sustav se lako prilagođava različitim prostornim zahtjevima, kombinirajući funkcionalno i ambijentalno osvjetljenje u jedinstvenoj cjelini.

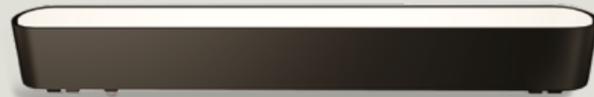

Magnetic track luminaires offer flexible lighting design within a system, allowing easy installation and repositioning of light modules. The modular approach enables simple adaptation to different spatial requirements, combining functional and ambient lighting into a cohesive solution.

Naziv/Name: LED tračna magnetna svjetiljka 6W / LED Magnetic Track Light 6W
Šifra/Code: 10771
Tip/Type: Tračna svjetiljka / Track light
Dimenzija (DxŠxV) / Dimensions (LxWxH): 114,5x25x27,5 mm
Boja/Colour: Crna/Black
Materijal/Material: Aluminij/Aluminium
Izvor svjetla / Light source: Integrirani LED / Integrated LED
Snaga/Power: 6 W
Svjetlosni tok / Luminous flux: 295 lm
Napon/Voltage: 220-240 V
Zaštita/Protection: IP20
Temperatura boje svjetlosti / Colour temperature: 3000K/4000K
Garancija/Warranty: 3 godine / 3 years

UPUTE ZA INSTALACIJU / INSTALLATION INSTRUCTIONS

Tračne svjetiljke predstavljaju pametno rješenje u svijetu osvjetljenja te izvrsno spajaju sofisticiran dizajn s visokom funkcionalnošću. Ove moderne svjetiljke su izrađene od traka opremljenih LED svjetlima, pružajući razne mogućnosti osvjetljenja za različite prostore.

Prednosti tračnih svjetiljki:

- 1. Prilagodljivo osvjetljenje:** Fleksibilne trake omogućavaju prilagodbu svjetlosnog intenziteta, smjera i boje prema individualnim preferencama i potrebama prostora. Možete stvoriti različite atmosfere i ambijente jednostavnom promjenom postavki.
- 2. Energetska učinkovitost:** LED tehnologija koja se koristi u tračnim svjetiljkama pruža visoku energetska učinkovitost. Ovi izvor svjetlosti troše manje energije, čime se smanjuju troškovi električne energije i pozitivno doprinosi održivosti.
- 3. Estetski dizajn:** Tanki profil tračnih svjetiljki omogućava elegantan izgled, bez obzira na to koriste li se u dnevnim boravcima, spavaćim sobama, uredima ili komercijalnim prostorima. Minimalistički dizajn često se savršeno integrira u različite stilove uređenja interijera.
- 4. Fleksibilna instalacija:** Tračne svjetiljke mogu se jednostavno instalirati na različite površine, uključujući stropove, zidove ili druge ravne površine. To pruža fleksibilnost u postavljanju i omogućava kreativne arhitektonske i dizajnerske izraze.

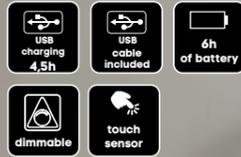

Track lights represent a smart solution in the world of lighting, seamlessly combining sophisticated design with high functionality. These modern fixtures are crafted from strips equipped with LED lights, offering various lighting possibilities for different spaces.

Advantages of track lights:

- 1. Adjustable lighting:** Flexible strips allow for the adjustment of light intensity, direction, and color according to individual preferences and space requirements. You can create different atmospheres and ambiances with a simple change of settings.
- 2. Energy efficiency:** The LED technology used in track lights provides high energy efficiency. These light sources consume less energy, reducing electricity costs and contributing positively to sustainability.
- 3. Aesthetic design:** The slim profile of track lights allows for an elegant appearance, whether used in living rooms, bedrooms, offices, or commercial spaces. The minimalist design often integrates perfectly into various interior styling.
- 4. Flexible installation:** Track lights can be easily installed on different surfaces, including ceilings, walls, or other flat surfaces. This provides flexibility in placement and allows for creative architectural and design expressions.

STRETCH BLACK

Stropni ventilator s izvlačnim lopaticama objedinjuje diskretan dizajn i ugodnu cirkulaciju zraka. Kada nije u uporabi, lopatice se povlače u kućište, čime prostor zadržava čist i smiren izgled. Pomoću daljinskog upravljača sa šest brzina lako se prilagođava intenzitet rada, omogućujući optimalan ugodaj tijekom cijelog dana.

The ceiling fan with retractable blades offers a refined solution for comfortable air circulation. When not in use, the blades retract seamlessly into the housing, preserving a clean and understated appearance. Equipped with a remote control featuring six speed settings, it allows effortless adjustment to create a pleasant atmosphere throughout the day.

Vrijeme rada / Working time: 12h ili dva kišna dana / 12 h or two rainy days

Solarni LED reflektori namijenjeni su vanjskoj rasvjeti bez potrebe za električnim priključkom. Integrirani solarni panel omogućuje punjenje tijekom dana, dok LED izvor osigurava pouzdano i energetski učinkovito osvjetljenje noću.

Solar LED floodlights are designed for outdoor lighting without the need for a power connection. The integrated solar panel charges during the day, while the LED light source provides reliable and energy-efficient illumination at night.

SOLARNE
SVJETILJKE /
SOLAR LIGHTS

SUWON

Solarne zidne svjetiljke koriste energiju sunca za samostalno osvjetljenje vanjskih površina. Namijenjene su jednostavnoj ugradnji na fasade, ograde ili ulazne zone, gdje pružaju funkcionalno svjetlo uz minimalne zahtjeve za održavanje.

Solar wall lights use solar energy to operate independently, providing practical lighting for exterior surfaces. Designed for installation on facades, fences or entrance areas, they deliver functional illumination with minimal maintenance requirements.
